JOSHUA ADRIANE A. LARA

OBJECTIVE

To leverage my passion for technology and strong problem-solving skills in a computer technician role, providing efficient and effective technical support while continually expanding my knowledge and expertise in the field.

PROFESSIONAL ACHIEVEMENTS

- **Laptop Repairs and Maintenance**
  Successfully repaired laptops by reformatting and repairing operating systems, replacing or upgrading storage drives, and performing diagnostics and maintenance.
- **Computer Assembly**
  Assembled custom desktop computers from scratch, selecting and installing components to meet specific performance requirements and ensuring optimal functionality.
- **PlayStation 3 Restoration**
  Conducted a deep cleaning and replaced thermal paste on an old PlayStation 3, improving its performance and longevity.
- **Home Network Setup**
  Created a functioning LAN server for home usage, demonstrating strong networking skills and the ability to set up and maintain network infrastructure.
- **Group Project: Game Development**
  Collaborated on a group project to create a game based on Python, showcasing teamwork, programming skills, and project management.
- **Technical Certifications**
  Obtained relevant certifications such as "Installing and Configuring Computer Systems" and "Introduction to CSS" from TESDA demonstrating a strong foundation in technical skills and industry standards.
- **Extracurricular Activities**
  Member of the Computer Engineering Club, where I collaborated on tech projects, organized events, and engaged with peers to stay updated on industry trends.

SKILLS

As a Computer Engineering student at the Polytechnic University of the Philippines, I have gained a solid foundation in both theoretical and practical aspects of computer systems, hardware, and software. My coursework has provided me with extensive knowledge in areas such as:

- **Computer Hardware and Software**: Understanding of computer architecture, troubleshooting, and repair.
- **Programming and Software Development**: Proficiency in various programming languages and software tools, enabling me to diagnose and resolve software issues effectively.
- **Networking**: Knowledge of network configurations, maintenance, and security measures.
- **Problem-Solving**: Developed strong analytical skills through complex engineering projects and practical lab work.

WORK HISTORY

Freelancer, Computer Technician
Parañaque City
(Dates of Employment: August 2023 – Present)

EDUCATION

Bachelor of Science in Computer Engineering
Polytechnic University of the Philippines, Parañaque Campus
GWA: 1.86

- **Relevant Coursework**: Computer Systems, Programming, Network Engineering, Hardware Maintenance, Data Structures, Operating Systems, Software Engineering, Digital Logic Design.
